Custom Molded Shoe Work Order Page 2

See the LINE SHEET for style choices. If a style is needed that is not on this line sheet, please call for a quote BEFORE sending us the order.

STYLE CHOICE _____

COLOR _____

CAST/LAST MODIFICATIONS Leave cast as is (do no correct) Bring to neutral Add toe spring

** Last Length: We add 20mm to from the longest toe. This may result in the shoes being different lengths and can affect the aesthetic. However, making a shoe too long can result in an improper fit.

Ok to be different lengths Shoes need to be the same length, regardless of fit

Toe Shape: ** We attempt to make the shoes look symmetrical, but there are limitations due to deformities

Round (standard) Square/Oblique

Heel Height: (If patient is equinus or other, please specify the height required - additional charge if over 1/2")

Standard (appx 1/2" captured in cast) No heel height Other: _____

Orthotic : Soft EVA - 45 durometer (standard) Firm EVA - 55 durometer (needs addtl support/heavier)

Box Toe: Soft (standard) Cloth (extra sensitive toes)
